Summer Specials

Quarterly Special valid from July 1st – September 30th, 2021

IP69K Panel PCs and monitors
For hygiene applications

The hygienic industrial PCs feature an all-round closed stainless-steel housing without screws or sharp edges. The high performance and reliable panel PCs and monitors are optimized for machine and system operation in hygiene applications in the pharmaceuticals, food, beverage, and chemicals industries.

Sealed completely and protected against steam jets

You can produce efficiently and cleanly at all times with the hygienic industry PCs and monitors made of stainless steel.

Your Advantages

- ☑ Robust and high-performance under extreme conditions
- ☑ Hygienic design with passive cooling
- ☑ Scalable processor performance depending on the application
- ☑ Fast installation and services
- ☑ Easy mounting with boom or VESA adapter

All orders must reference promo code ***SUMMER2021***. Quarterly Special valid from July 1st – September 30th, 2021. All prices are customer net each.
*Pricing valid in Canada only.

RIFLINE series
Force Guided relays

The latest additions to the the force-guided coupling relays of the RIFLINE complete product family.

Features and benefits

☑ Very narrow relay module for relays with 4 force-guided contacts

☑ Integrated status LED and freewheeling diode

☑ Switching currents up to 4 x 6 A

☑ Multiple contact arrangements: 2 N/O + 2 N/C, 3 N/O + 1 N/C

☑ Professional bridging of adjacent modules saves wiring time

Unmanaged switches in a narrow design
Quick and flexible installation

The new 1000 series Unmanaged Switches feature a compact design with Gigabit transmission speeds and flexible installation options. Enhanced traffic prioritization helps stabilize your network and increase your system availability.
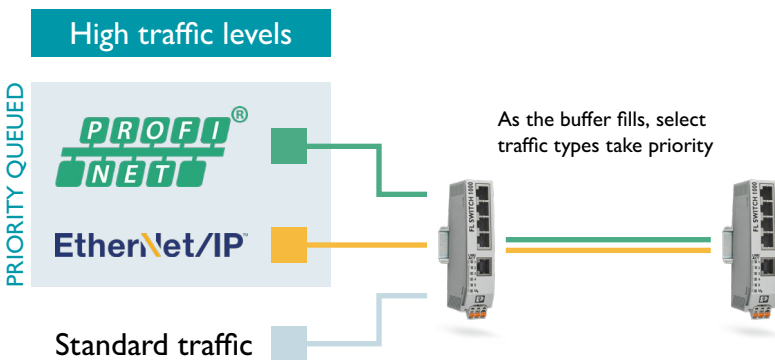

Main features

☑ High port density with the narrowest switch family

☑ Enhanced traffic prioritization for automation protocols

☑ PROFINET Conformance Class A for real-time data exchange, alarms, and diagnostics

☑ PROFINET versions with PTCP filter for reliable communication in PROFINET networks

Standard functions, variable number of ports, and various designs. These are all features of our Unmanaged Switches.
